<p><b>The Indispensables</b>-Patrick K. O'Donnell 2021-05-18 The acclaimed combat historian and author of The Unknowns details the history of the Marbleheaders and their critical role in the Revolutionary War. On the stormy night of August 29, 1776, the Continental Army faced annihilation after losing the Battle of Brooklyn. The British had trapped George Washington's army against the East River, and the fate of the Revolution rested upon the soldier-mariners from Marblehead, Massachusetts. One of the country's first diverse units, they pulled off an "American Dunkirk" and saved the army by navigating the treacherous river to Manhattan. At the right time in the right place, the Marbleheaders, a group of white, black, Hispanic, and Native American soldiers, repeatedly altered the course of events, and their story shines new light on our understanding of the American Revolution. As historian Patrick K. O'Donnell recounts, beginning nearly a decade before the war started, Marbleheaders such as Elbridge Gerry and Azor Orne spearheaded the break with Britain and helped shape the United States through governing, building alliances, seizing British ships, forging critical supply lines, and establishing the origins of the US Navy. The Marblehead Regiment, led by John Glover, became truly indispensable. Marbleheaders battled at Lexington and on Bunker Hill and formed the elite Guard that protected George Washington, foreshadowing today's Secret Service. Then the special operations-like regiment, against all odds, conveyed 2,400 of Washington's men across the ice-filled Delaware River on Christmas night of 1776, delivering the surprise attack on Trenton that changed the course of history. . . . The Marbleheaders' story, never fully told before now, makes The Indispensables a vital addition to the literature of the American Revolution. Praise for The Indispensables "Perfectly paced and powerfully wrought, this is the story of common men who gave everything for an ideal—America. The product of meticulous research, The Indispensables is the perfect reminder of who we are, when we need it most." —Adam Makos, author of the New York Times bestseller A Higher Call "O'Donnell's gift for storytelling brings the once famous regiment back to life, as he takes readers from the highest war councils to the grime and grit of battle." —Dr. James Lacey, author of The Washington War "Comprehensive. . . . Revolutionary War buffs will delight in the copious details and vivid battle scenes." —Publishers Weekly "A vivid account of an impressive Revolutionary War unit and a can't-miss choice for fans of O'Donnell's previous books." —Kirkus Review</p>

<p><b>Steak</b>-Mark Schatzker 2010-04-29 The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.</p>

<p><b>Pine Crossbills</b>-Desmond Nethersole-Thompson 2010-11-30 "From mid-January to mid-April 1935 I was off on my dilapidated bicycle, but how different Speyside was from Breckland. In late February many crossbills were still in flocks; I had to walk and cycle for many miles before finding my first nest in the last week of March, when I located a small breeding group in a plantation of old pines close to a keeper's cottage. Thenceforward, until 1942, I followed the crossbills and slowly began to understand a little about them. At first everything was gloriously new. I watched my crossbills mating and discovered how subtly a winter flock changed to a mating party and from a mating party to mated groups. I studied patterns of territory and dispersion and watched how hens built their nests. I sat under trees and I climbed to nests. I watched hens brooding and saw cocks feeding them. One hen pitched on my fingers and allowed me to catch her. I still vividly recall the sharp resinny scent of her body. I saw pairs rear their young and followed them and their broods through the forest. Soon my notebooks were full, but this was only the beginning." That extract from the book's first chapter describes how the author began his study of the Scottish pine-feeding crossbills, having noticed earlier that the calls of crossbills in Rothiemurchus Forest were different from those of the spruce-feeding common crossbills he had known in the English Breckland. From this study and a quest for the true identity of the Speyside crossbills has emerged that all too rare book, a work of scholarship and research that is wholly readable, in which the author's delight in his study subject becomes the reader's, too.</p>
<p><b>Kneeling in the Silver Light</b>-Dean M. Drinkel 2014-08-31 "The Unknown Soldier" ... "On the Side of the Angels" ... "The Wolves of Vimy" ... "The Secret of Blackwater Island" ... "Where the White Long Roadway Lies" ... Here are tales that create their own myths of that terrible war.</p>
<p><b>Physical Education 5-11</b>-Jonathan Doherty 2014-01-03 Physical Education 5-11 is about lighting or relighting a fire in all those who have the privilege and the responsibility of teaching children physical education in Primary schools today. It is written at a time of great change: a revised Primary curriculum; an increased drive to raise achievement and potentially a narrowing of curricular scope in favour of literacy and numeracy. It is little wonder that teachers are looking for certainty and answers to questions such as- What do I teach in PE? What do I need to know about children's development? What does good teaching look like in PE? How can I</p>

assess such a practical subject effectively? This new and updated edition provides answers to those questions, covers issues in Physical Education and provides a wealth of practical advice on teaching across the stages of the new 2014 curriculum. Drawing upon the author's experiences as a teacher, coach, lecturer and adviser, it delivers a justification for PE as an essential element in the Primary curriculum, imbues a theory into practice approach that provides readers with clarity, instils confidence and offers a licence to teach all practical aspects of PE effectively and creatively underpinned by knowledge of children's development, their learning and the critical professional issues in PE today. This book is the essential companion to inform and inspire students and practising teachers in this most dynamic and exciting of subjects!

**The Myth of You and Me**-Leah Stewart 2006 A letter from a childhood friend to whom she has not spoken in ten years and an odd legacy from her boss, elderly historian Oliver Doucet, sends Cameron on a mission to track down her old friend Sonia and deliver a mysterious package to her.

**Fowl Weather**-Bob Tarte 2007-03-16 In Bob Tarte's home, pandemonium is the order of the day, and animals literally rule the roost—thirty-nine of them at last count. Whether it's the knot-tying African grey parrot, or the overweight cat who's trained Bob to hold her water bowl just above the floor, or the nightmarish duck who challenges him to a shoving match, this menagerie, along with his endlessly optimistic wife, Linda, provides daily lessons on the chaos inherent in our lives. But not until this modern-day Noah's Ark hits stormy weather—and Bob's world spins out of control—does he realize that this exuberant gaggle of animals provides his spiritual anchor. It is their alien presence, their sense of humor, and their impulsive behavior that both drive Bob crazy and paradoxically return him to sanity. With the same sly humor and dead-on character portraits that made Enslaved by Ducks such a rousing success, Tarte proves that life with animals offers a wholly different perspective on the world.

**Beginning PHP and PostgreSQL E-Commerce**-Cristian Darie 2007-03-01 The first book to show readers how to create a complete e-commerce driven website using two of the most popular open source technologies, PHP and PostgreSQL Adapted from the strong selling Beginning PHP 5 and MySQL E-Commerce, this book is based on a proven and popular instructional model. PostgreSQL, long the second most popular open source database in the world, has seen a significant resurgence in interest throughout 2005 due to software enhancements and considerable capital injections. It stands to reason already strong interest in this database will continue to grow for the foreseeable future.

**Finding Freedom in the Classroom**-Patricia H. Hinchey 2010 Since its introduction in 1998, Finding Freedom in the Classroom has impacted countless educators and preservice teachers by providing provocative questions about taken-for-granted educational routines as well as an alternative, imaginative view of what classrooms might become. This revised edition brings the conversation to the present day with contemporary examples and references to the best current thinking and writing on relevant issues. By defining terms in everyday language and demonstrating their relevance to everyday life in and out of the classroom, the book demystifies such formidable concepts as hegemony, epistemology, and praxis for readers with little or no background in educational philosophy. Each chapter in this edition ends with several thought-provoking discussion questions and an annotated list of suggestions for further reading, which together provide a sturdy bridge between the theoretical and the practical. Finding Freedom in the Classroom can help teachers both imagine and build new classroom worlds, empowering students and teachers alike to actively shape - rather than passively accept - their fates.

**Knox: Chosen by Blood**-Virna DePaul 2017-04-20 He clings to his control by the razor-sharp edge of his fangs... During war between humans and Otherborn, FBI scientists developed a vaccine that rendered human blood useless to vampires, leaving Knox Deveraux's immortal vampire clan longing for death. Now, to make amends, the FBI wants him to lead a hand-picked team to find the missing antidote. Trouble is, one member of that team is the human woman who owns his soul. A woman he is forbidden to touch. She longs to satisfy the dark needs he ignites in her body... For FBI Special Agent Felicia Locke, Knox is off limits. No matter that his vampire bride—her best friend—is gone now; he's duty bound to mate another vamp. If that locked door isn't enough, his disdain for his half-human bloodline throws away the key. They both have a job to do, and desire has no place on the training schedule. But with betrayal lurking in the shadows, and a fractured team that seems hell-bent on self-destruction, Knox and Felicia may have no choice but to accept the truth—that their love is the strongest weapon of all.

**A Brief History of Montmaray**-Michelle Cooper 2009-10-13 "There's a fine line between gossip and history, when one is talking about kings." Sophie Fitzosborne lives in a crumbling castle in the tiny island kingdom of Montmaray with her eccentric and impoverished royal family. When she receives a journal for her sixteenth birthday, Sophie decides to chronicle day-to-day life on the island. But this is 1936, and the news that trickles in from the mainland reveals a world on the brink of war. The politics of Europe seem far away from their remote island—until two German officers land a boat on Montmaray. And then suddenly politics become very personal indeed. A Brief History of Montmaray is a heart-stopping tale of loyalty, love, and loss, and of fighting to hold on to home when the world is exploding all around you. "Once in a while, a special book will cross our paths and make us grateful for life and the ability to read. I'm talking about A Brief History of Montmaray by Michelle Cooper. I'm calling her Australia's next stroke of literary brilliance."—Viewpoint
